
ITEM DESCRIPTION: **UNIVERSAL SKID STEER MOUNT****PART NUMBER:** **661318** **WEIGHT:** **LBS.****RELEASE DATE:** **8-1-11** **VALUE STREAM:** **DRIVES**

**Designed for the Rigorous Demands
of the Auger Tooling Industry!**

APPLICATION: **Long Reach Mount for Skid Steer - Use with Revolution Series Drives**

SPECIFICS: The new long reach mount is designed to provide maximum ground clearance by providing 7' to 11' of clearance depending on the Drive model selected. The new design mount allows any size of Auger Drive (up to 12,000 ft/lbs) to be used and stow in the mounts cradle without any adjustments.

The unique design allows the Drive to be positioned up to 48" away from the cab maximizing visibility and increasing safety during operation. The long reach mount comes standard with retractable stabilizer arms allowing the mount to stand upright when not in use making it easier to store and to attach to the skid loader.
