

PRESSURE DIGGER ROCK AUGER

Great for use in undesirable rocky conditions and in areas with minimum ground clearance!

Pengo True Cut PDR augers are made with thick, heat-treated cast alloy heads and use heavy-duty 1" shank bullet-style teeth. The cast heat treated head provides superior wear and performance compared to normal fabricated augers. In addition the cast head is field repairable with standard welding techniques, utilizing low hydrogen welding rods and no pre or post heating requirement.

These rugged augers feature a 30" overall length with a 1" thick carry flight to get through the tough jobs. A 3-1/2" square drive hub is standard with other sizes available.
