

# ROCK RIPPER® PRESSURE DIGGER

## Rock Ripper® HRR

The Rock Ripper® HRR-Series augers are designed to maximize drilling for all types of medium-sized pressure diggers. Best suited for solid and fracturable rock as well as compacted soil, the Rock Ripper® will increase drilling production and beyond other designs.

All augers are made with 1" thick flighting, heavy-duty center shaft, standard Rock Ripper® teeth and pilot and any hub up to 3" square.
